<p>Prof. Michael Stark, M.D President, The New European Surgical Academy (NESA), Berlin, Germany</p>	 A portrait of Prof. Michael Stark, M.D., a middle-aged man with short grey hair, wearing a dark suit, white shirt, and blue tie, looking slightly to the left.	<p>Aqueduct cervical dilator add value to the daily practice of every gynecologist, whatever the indication of the procedure is. The Scientific Board of the New European Surgical Academy (NESA), after hearing my report and reviewing the outcome of on-going studies decided to endorse this promising method and device.</p>
<p>Dr. Gennaro Raimondo, M.D Department of Gynecology, Clinica Mediterranea, Naples, Italy</p>	 A portrait of Dr. Gennaro Raimondo, M.D., a middle-aged man with short grey hair and glasses, wearing a dark suit and a dark turtleneck sweater, looking directly at the camera against a blue background.	<p>Aqueduct-100 is simple and easy to use and alleviates the discomfort and the potential complications to which millions of women each year are exposed when undergoing cervical dilation prior to intrauterine procedures.</p>
<p>Dr. Larry Spiegelman, M.D Baptist Medical Arts Surgical Center, Miami, Florida, USA</p>	 A portrait of Dr. Larry Spiegelman, M.D., a middle-aged man with short dark hair, wearing a dark suit, white shirt, and a patterned tie, smiling at the camera.	<p>The Aqueduct 100 cervical dilator is effective and innovative. It provides reliable dilation and is perfect for the office setting. Patients tolerate dilation well with less risk and minimal discomfort. This device is very safe and easy to use.</p>
<p>Prof. Farr Nezhat, M.D Weill Cornell Medical College of Cornell University, NY, USA</p>	 A portrait of Prof. Farr Nezhat, M.D., a man with dark hair, wearing a blue lab coat over a white shirt, smiling and resting his chin on his hand.	<p>Aqueduct Medical provides cutting-edge catheter technology to successfully and safely dilate the cervix while ensuring patient comfort and protecting tissue integrity. The product meets the needs of all intrauterine procedures and can replace today's array of inefficient and outdated devices and revolutionize the world of cervical dilation.</p>
<p>Dr. Avinoam Tzabari, M.D Head of ObGyn dep., Yoseftal Medical Center, Eilat, Israel</p>	 A portrait of Dr. Avinoam Tzabari, M.D., an older man with white hair, wearing a white lab coat over a light blue shirt, looking slightly to the side.	<p>Aqueduct cervical dilator combines the advantages of Hegar dilation (short dilation time) with the advantages of Laminaria (moderate radial dilation with minimal risk for false route, perforation or future cervical incompetence)</p>
